

Balancid™ Dry

Balancid™ Dry is a complementary feed to increase the Dietary Electrolyte Balance (dEB) levels of poultry diets, simultaneously **suppress pathogenic bacteria** and **increase protein digestion**. An optimal dEB is necessary for poultry to

show optimal performance.

Composition

Balancid™ Dry adds sodium to diets, without anions such as chloride, sulphur and therefore makes it a valuable tool to increase the dEB. Furthermore, it adds formic acid, which has shown to be an excellent feed anti-bacterial due to its least MIC value among all other SCFAs.

Supports best performance by

- optimizing dEB value of feeds
- antibacterial effect

Composition

Balancid™ Dry is composed of free-flowing feed grade sodium formate.

Dosage recommendation

A dosage of 1 to 5 kg per ton can be used in feeds.

- A dosage of 1 kg per ton of feed increases the dEB by 14 mEq

Physical properties & appearance

Balancid™ Dry is a crystalline white, slightly yellow powder with a slight acidic smell.

Packaging

Standard packaging for **Balancid™ Dry** is 25 kg bags on 1000 kg pallets.

Storage

Balancid™ Dry is best stored in a dry and cool place in its original closed packaging. It is stable and has a shelf life of at least 24 months.

E.F.S.-Holland B.V.

Euro Feed Services Holland was established in 1996 by Cees Twint and Bert van Bremen.

E.F.S. keeps developing continuously. As a result of consistent innovation, our position at the forefront of the market and building an extensive network we have become a trusted partner to many relations.

E.F.S. specialises in two fields: 1: Health promoting products, additives and raw materials for compound feeds and 2: Bacteriological control of raw materials and compound feeds.

By developing our own products and concepts and close cooperation with customers and other partners we contribute to a sustainable sector and strive to ensure continuity. Our professional and energetic team is available on a daily basis to serve our clients to the best of its ability. In 1996 we started our deliveries, then only in the Netherlands. Today we do business with companies in more than 30 countries all over the world.

'APC Nutrients is our business partner with its professional team and superior customer relations in the market to help Indian customers validate E.F.S.-Holland's feed additives. Together, with APC Nutrients, we strive to solve many of the customer challenges with our solid quality backed solutions'.

This makes us E.F.S.!
