

# LUMI-CON

Unique Blend of Probiotic / Bacterial Strain for Luminescence Control

## Composition

Contains high concentration of beneficial microbes for soil enrichment.

## Benefits LUMI-CON

- Reduces Luminescence in the culture system of shrimps
- Actively inhibits colonisation of potential pathogens by production of bactericidal substances, competition for nutrients and spaces.
- Stimulates host immunity and helps for exclusion of pathogens.
- Provides greater non specific disease protection as a result of both immunity enhancement and competitive exclusion of pathogen.
